PROJECTS

Personal Portfolio Website

Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript to professionally showcase my technical skills, work experience, projects and contact information. Created with the purpose of building a strong online presence for career opportunities and project collaboration. The site includes a custom .com.np domain, and a functional contact form for direct communication.

<https://www.kripeshbhusal.com.np>

Database-Driven Contact Form

Store and retrieve user input with PHP, MySQL, XAMPP which result to secure and real-time communication with users. Implement form validation, prepared statements (to prevent SQL injection), and AJAX (for smooth, real-time updates) to enhance both security and user experience. This approach ensures efficient data management, protects user information, and provides a seamless interactive experience that keeps users engaged and satisfied.

Domain + Hosting Setup for .com.np

Store and retrieve user input with PHP, MySQL, XAMPP which result to secure and real-time communication with users. Implement form validation, prepared statements (to prevent SQL injection), and AJAX (for smooth, real-time updates) to enhance both security and user experience. This approach ensures efficient data management, protects user information, and provides a seamless interactive experience that keeps users engaged and satisfied.
